Dear Dr. Williams,

Just wanted to express our appreciation for including our staff in your Wednesday, November 18 training entitled Time and Stress Management. It was evident from the participants that this proved to be a popular and informative subject. "How do we attain balance?"

Your determination to enable people to grow and develop themselves is commendable. Just observing how you brought people in touch with their inner feelings was exciting. I can still hear you saying in my ear "what broke your joy?" It's amazing when we start to look deep within ourselves and realize just how circumstances are connected.

Dr. Williams, it is always a pleasure having you in our midst. We appreciate and value your friendship and look forward to more effective trainings in the future.

Sincerely,

A handwritten signature in cursive script, appearing to read "Rosette".

Rosette Proodian
